

WHAT IS CLAIMED IS:

1. A themed combination storage and display device, comprising:
an openable container defined by a plurality of peripheral walls,
5 a base and a top, said plurality of peripheral walls and said base
defining an interior compartment, and
a plurality of display frames, said plurality of display frames
defined in said plurality of peripheral walls,
wherein said container has a three-dimensional configuration
10 themedly related to the stored contents.

2. The themed combination storage and display device of Claim
1, wherein said top is removable.

15 3. The themed combination storage and display device of Claim
1, wherein said top is hingedly related to at least one of said
plurality of peripheral walls.

20 4. The themed combination storage and display device of Claim
1, wherein said three-dimensional configuration is in the form of a
school building.

5. The themed combination storage and display device of Claim

4, wherein said plurality of display frames is a plurality of windows of said school building.

6. The themed combination storage and display device of
5 Claim 4, wherein said top is a roof.

7. The themed combination storage and display device of
Claim 4, wherein said plurality of display frames is suitable for
receipt and sequential display of annual school photographs.

10

8. The themed combination storage and display device of
Claim 1, wherein said interior storage compartment has
ornamentation.

15 9. The themed combination storage and display device of
Claim 4, wherein said interior storage compartment has
ornamentation, wherein said ornamentation is at least one school
room component.

20 10. The themed combination storage and display device of
Claim 9, wherein said ornamentation is a chalkboard.

11. The themed combination storage and display device of

Claim 9, wherein said ornamentation is a clock.

12. The themed combination storage and display device of
Claim 4, wherein said school building carries a school mascot
5 emblem.

13. The themed combination storage and display device of
Claim 4, wherein said school building depicts a school color
scheme.

10

14. The themed combination storage and display device of Claim
1, wherein said three-dimensional configuration is in the form of a
sports arena.

15 15. The themed combination storage and display device of Claim
5, further comprising a door.

16. The themed combination storage and display device of
Claim 5, wherein each said window of said plurality of windows
20 carries an essentially transparent covering.

17. The themed combination storage and display device of
Claim 1, further comprising hanging file-type apparatus disposed

within said interior compartment.

17. The themed combination storage and display device of Claim 1, further comprising a locking mechanism.

5

18. A method of storing and displaying themed memorabilia, comprising the steps of:

- (a) obtaining a themed storage and display device defined by a plurality of peripheral walls, a base and a top, said plurality of peripheral walls and said base defining an interior compartment, and a plurality of display frames, said plurality of display frames defined in said plurality of peripheral walls;
 - (b) opening said top of said themed storage and display device;
 - 15 (c) placing the themed memorabilia into said interior compartment;
 - (d) inserting the photographic memorabilia into said plurality of display frames;
 - (e) replacing said top of said themed storage and display device.
- 20

19. The method of Claim 18, wherein said themed storage and display device has a schoolhouse-shape, wherein said plurality

of display frames is a plurality of windows, and wherein said top is a roof.
